Former Prisoners Of War Entitled Grade Promotion

Members of the Enlisted Reserve Corps who were former prisoners of war and who did not receive a promotion of one grade following their return to duty, may receive that promotion, General Mark W. Clark, Sixth Army Commander said today.

Under the new directive announced in a War Department circular, promotions for members of the Enlisted Reserve Corps are authorized for those eligible with ratings of technical sergeant or below.

Members of the Enlisted Reserve Corps who are eligible may submit a letter of application direct to The Adjutant General, Washington 25, D. C. They should submit information including date, grade and section in which enlisted in the Enlisted Reserve Corps, present grade held in Enlisted Reserve Corps, date taken prisoner of war, date and grade held at time of return to military control, and date and grade of last promotion.

Skyway 1, Coast To Coast Route For Personal Planes Is Planned

Every city and town within a 20-mile radius of Los Angeles, as well as many east of the city, will be linked with Skyway 1, the first coast-to-coast air route for the personal plane operator, it was disclosed by President G. S. Beers, mayor of the Los Angeles Chamber of Commerce.

Los Angeles will be the western terminus of the transcontinental air avenue, running 40

miles wide from Washington, D. C., with two eastern legs converging at Abilene, Tex., and a single path from Abilene to Los Angeles.

The Skyway 1 plan, conceived by the Los Angeles Chamber and fostered in cooperation with the Washington, D. C. Board of Trade, calls for all cities and towns in the 40-mile strip to be marked with standard CAA symbols to guide private flyers. The job of painting the markers will be conducted under the sponsorship of Chamber of Commerce in the affected communities, according to the master plan for Skyway 1.

Distribution Of Medal Will Start

General Mark W. Clark, Sixth Army commander, announced today that general distribution of the American Defense Service medal and the World War II Victory medal to eligible veterans in the Sixth Army area will start immediately.

Former Army personnel who served between Sept. 8, 1939, and Dec. 7, 1941, under orders to active duty for a period of 12 months or longer are entitled to the American Defense Service medal. A foreign service clasp and bronze service star are furnished if the person entitled to the medal was serving outside the continental limits of the United States, including Alaska. The World War II Victory medal is awarded for service between Dec. 7, 1941 and Dec. 31, 1946, and no clasp or star is authorized.

Unemployment Claim Chiselers Are Apprehended

Results of the first few weeks of the Department of Employment's intensified campaign against unemployment insurance chiselers have been most gratifying, it was reported today by James G. Bryant, chairman of the California Employment Stabilization Commission.

"While the intensified campaign has only been carried on in the Sacramento Valley for the past three weeks and in the San Joaquin Valley for the past four weeks, it is evident that the Department's program is achieving 'ing' results," Bryant declared. "The unemployment insurance claim load in the Sacramento Valley has decreased about fifteen percent and by about five percent in the San Joaquin Valley," Bryant stated. "This includes both claims for State unemployment insurance and for G.I. benefits, and is accounted for mostly by failure of claimants to return for their checks."

Concrete Type Ground Enclosure Attracts Notice

Something decidedly new and different in a ground enclosure is attracting attention right now at the home of F. W. Murphy, 2074 Lincoln ave.

The new wall, which surrounds a most unique rock garden and patio at the Murphy place, was constructed entirely of preformed reinforced concrete units, consisting of concrete planks, posts, top rails, and caps.

"These pre-formed units," says C. F. Gage, a concrete specialist of 1807 Andree ave., "have enabled Mr. Murphy to construct his wall in a hurry, and without the necessity for any foundation."

"The pre-fabricating was done at the plant of the Harbor Homes Company, at 520 S. Irena ave., in Redondo, where the new system has been developed. Here a large staff is now employed in production of the concrete wall sections, which are being marketed under the name of Permaplank, indicative of the permanency of the product. Plans are under way for the construction of a plant for the fabrication of Permaplank in Torrance.

Elephants Aid War

Elephants helped win the war by loading drums of gasoline into Army airplanes flying the Hump into China.
